Oddar Meanchey CF REDD: Bringing Cambodia's First REDD Project to Market

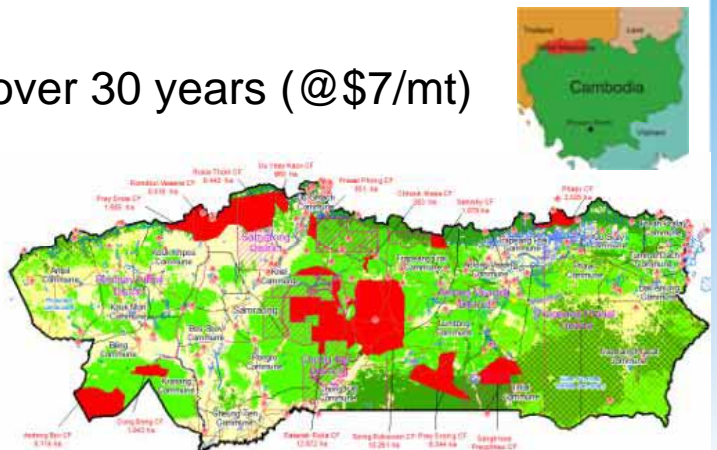

オッドー・ミアンチェイ州でのコミュニティ
林業を基盤としたREDD:
カンボジア初のREDDクレジット化を目指して

Presented by Amanda Bradley July, 2010

Pact Cambodia | www.pactcambodia.org

Background 背景

- CF “community based” REDD Project initiated in Jan 2008
- 13 CF sites “bundled” in Oddar Meanchey (68,000 ha)
- Submitting to CCBA and VCS
- Collaboration with FA, TGC, CDA, MCF, CFMCs and CF Federation
- Generating approx. \$39m over 30 years (@\$7/mt) (\$19/ha/yr)
- 7.1 million metric tons
- High rate of deforestation = high additionality

Pact Cambodia | www.pactcambodia.org

Achievements 達成狀況

- Legal tenure and carbon benefits for 11 CFs
- Demarcated project boundaries
- 126 biomass inventories
- PD for CCBA (final) and VCS (draft)
- Community Consultation
- 1st Methodology for VCS REDD
- Biodiversity assessment (design)
- Social assessment (design)
- MRV framework (design)
- Built capacity of local partners

Project will go to market this year

Pact Cambodia | www.pactcambodia.org

Challenges 課題

- Negotiation among many stakeholders
- Widening community awareness
- Inventory work (accuracy & landmines)
- New METH & Validation (CARs), degradation
- Controlling drivers of deforestation:
 - agriculture inside CF areas
 - growing military presence
 - migrants – population growth

Lessons Learned & Recommendations

教訓・提言

- Pilots provide critical on-the-ground experience
- Documentation is important – policy makers need to pay attention to what is happening on the ground
- CF is an ideal platform for REDD but site dynamics vary widely and require specialized attention
- Define benefit-sharing as clearly as possible before revenues arrive

Pact Cambodia | www.pactcambodia.org

REDD Readiness REDD準備活動

- Cambodia is developing a National REDD Strategy ('REDD Roadmap')
- Communities need tenure and rights to carbon as a top priority
- Simplify requirements to reduce costs and make more feasible & replicable (use technology)
- Structured and organized capacity building for national and local level
- Strengthen requirements for FPIC, equitable benefit-sharing, and integration of biodiversity conservation
- Consistent financing for REDD start-up
- Reduce bureaucracy at all levels
