

How to build a community of practice on sustainable development.

持続可能な開発のための実践コミュニティ構築の方法

Hina Lotia

General Manager, LEAD Pakistan

&

Asia Coordinator, CDKN

Overview

概要

- 1. What is CDKN?
- 2. Examples of our work with CoPs
- 3. What we have learnt about building a CoP
- 4. Recommendations for ISAP

What is CDKN?

CDKNとは?

- Mission is to support decision-makers in delivering 'climate compatible development'
- Windows for research, TA, knowledge management, partnerships and negotiator support

Climate and Development Knowledge Network | www.cdkn.org

Three key features of CDKN

It is about climate

AND development

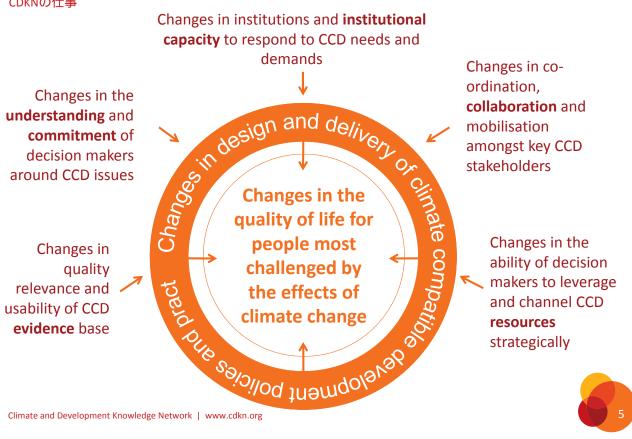

It is about research **AND** policy

It is demand-led, BUT with a particular niche: delivering 'climate compatible development'.

- CDKN is an independent agency
- •75% of the CDKN operational budget will be spent through partners

What is CDKN tasked to achieve?

Snapshot of our work – Technical Assistance

CDKNの仕事-技術支援

Respond to requests from policy-makers for support and advisory services for designing and delivering CCD policies

Examples from Asia

Economic Assessments of Impact of Climate Change on key sectors in Nepal

Designing a Disaster Risk Insurance Scheme with NDMA to protect the poor in **Pakistan**

Work Programme on Loss & Damage with Government of Bangladesh and LDC Group for UNFCCC

Snapshot of our work — Research + Knowledge Management

CDKNの仕事-研究と知識管理

Strengthening the evidence base for CCD policy-making by connecting the 'broken triangle' of policy, research and civil society

Global, Regional and National Research Calls

Showcasing best practices on CCD in 'Inside Stories' Series

Online 'user guide' of existing tools for CCD planning

www.climateplanning.org

South Asia Research Call on DRR in partnership with START

Climate and Development Knowledge Network | www.cdkn.org

Examples of how CDKN works with and builds Communities of Practice

CDKNの仕事と実践コミュニティの事例

#1 CDKN + partners itself

#1 CDKNとパートナー

Partners include:

- CDKN alliance members: PwC, ODI, Lead, SSN, FFLA, INTRAC
- Primary Beneficiaries: Policy-makers
- Secondary Benficiaries: Wider stakeholders
- Suppliers: Partners contracted to implement projects
- Counterparts: Co-funding/collaboration on projects (e.g. ESMAP)

ICCCAD

- Benefits:

- Learning and replication of CDKN projects across countries/regions
- Building on other initiatives, avoiding duplication.
- Finding best expertise to deliver projects.

- Tools:

- Communication methods: website, newsletter, social media
- Learning and networking events: e.g. UNFCCC side-events

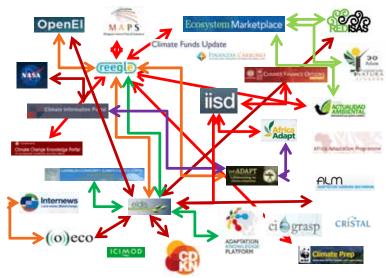

Climate and Development Knowledge Network | www.cdkn.org

#2 Knowledge Brokers Group

#2 知識ブローカーグルーフ

- Rather than creating another online portal decided to strengthen and connect existing portals.
- Created knowledge brokers groups: Met in 2011 and 2012 to share learning
- CDKN funding call connects 17 brokers in 7 initiatives

#3 Community Based Adaptation

#3 コミュニティ・ベースの適応

- Active and growing CBA 'community', 6th CBA conference held in April 2012
- But largely reserved to NGO community (and some researchers)
- CDKN is strengthening this CoP: by,
 - Integrating policy-makers within CoP: Government participation in annual CBA conferences; Using an ICCCAD Government 'cohort' to study mainstreaming CBA within policy-making process;
 - CDKN/IIED developing and testing a 'tool' for defining and measuring the extent to which a CoP has been created on CBA. Tool will be published as replicable model.
 - Supporting the 'Action-Research on Community Adaptation Bangladesh' (ARCAB) –
 a innovative partnership of NGOs and practitioners to develop a tool for
 participatory M&E which can be used by practitioners implementing community
 adaptation initiatives.

Climate and Development Knowledge Network | www.cdkn.org

What we have learnt about CoPs

実践コミュニティから学んだこと

The reality...

- Everyone is busy. Participating in a CoP will never by priority #1.
- Resources are scarce. Competition within members of a CoP is inevitable
- Different forms of knowledge sharing (online, conferences) work for different audiences

So...

Clearly define the purpose and outputs of a CoP Conference
Overload.
Find new
ways to share
knowledge

Find incentives for active participation in a CoP

Carry out M&E of a CoP

Thank You!
