

# 日中韓三カ国協力を進めていくための 研究課題

Possible research themes for promoting  
further collaboration in the future

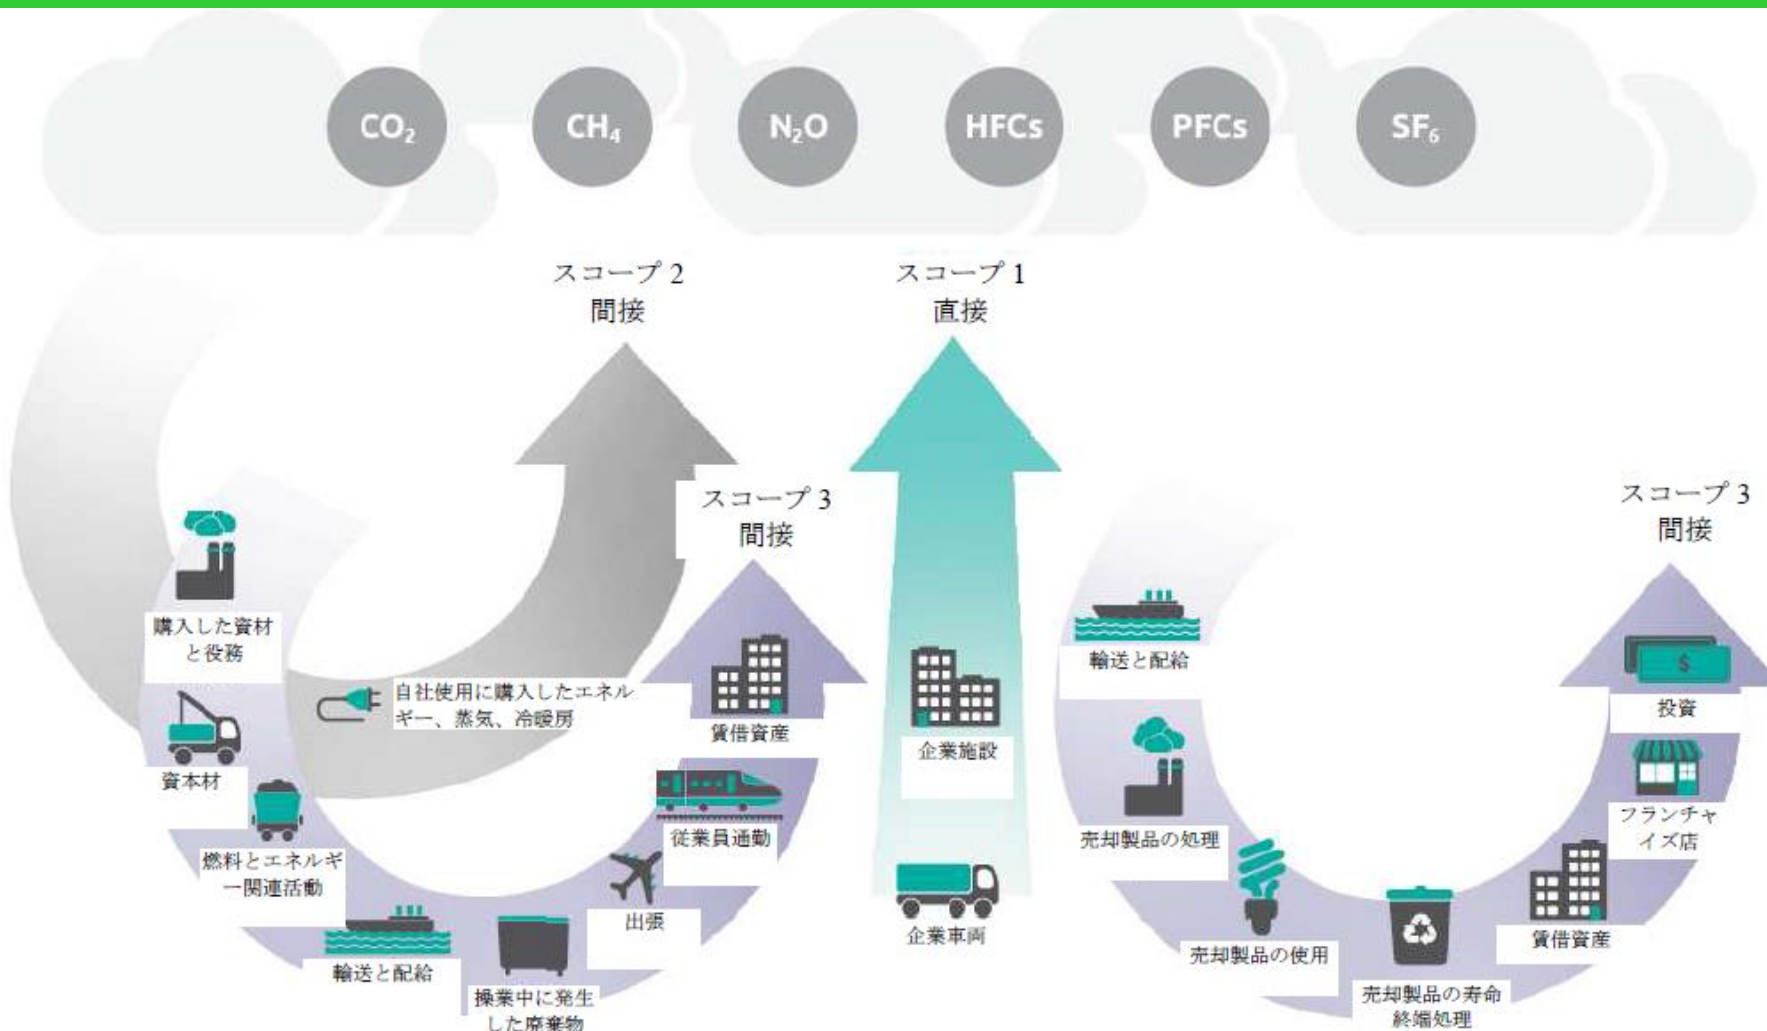

# 有望な取組み例

企業のヴァリューチェーンの上流から下流までのSCOPE 3 排出量

Encouraging approach:

SCOPE 3 emission amount from upstream to downstream in value chain

(Source: WRI)

# Model Eco-cities

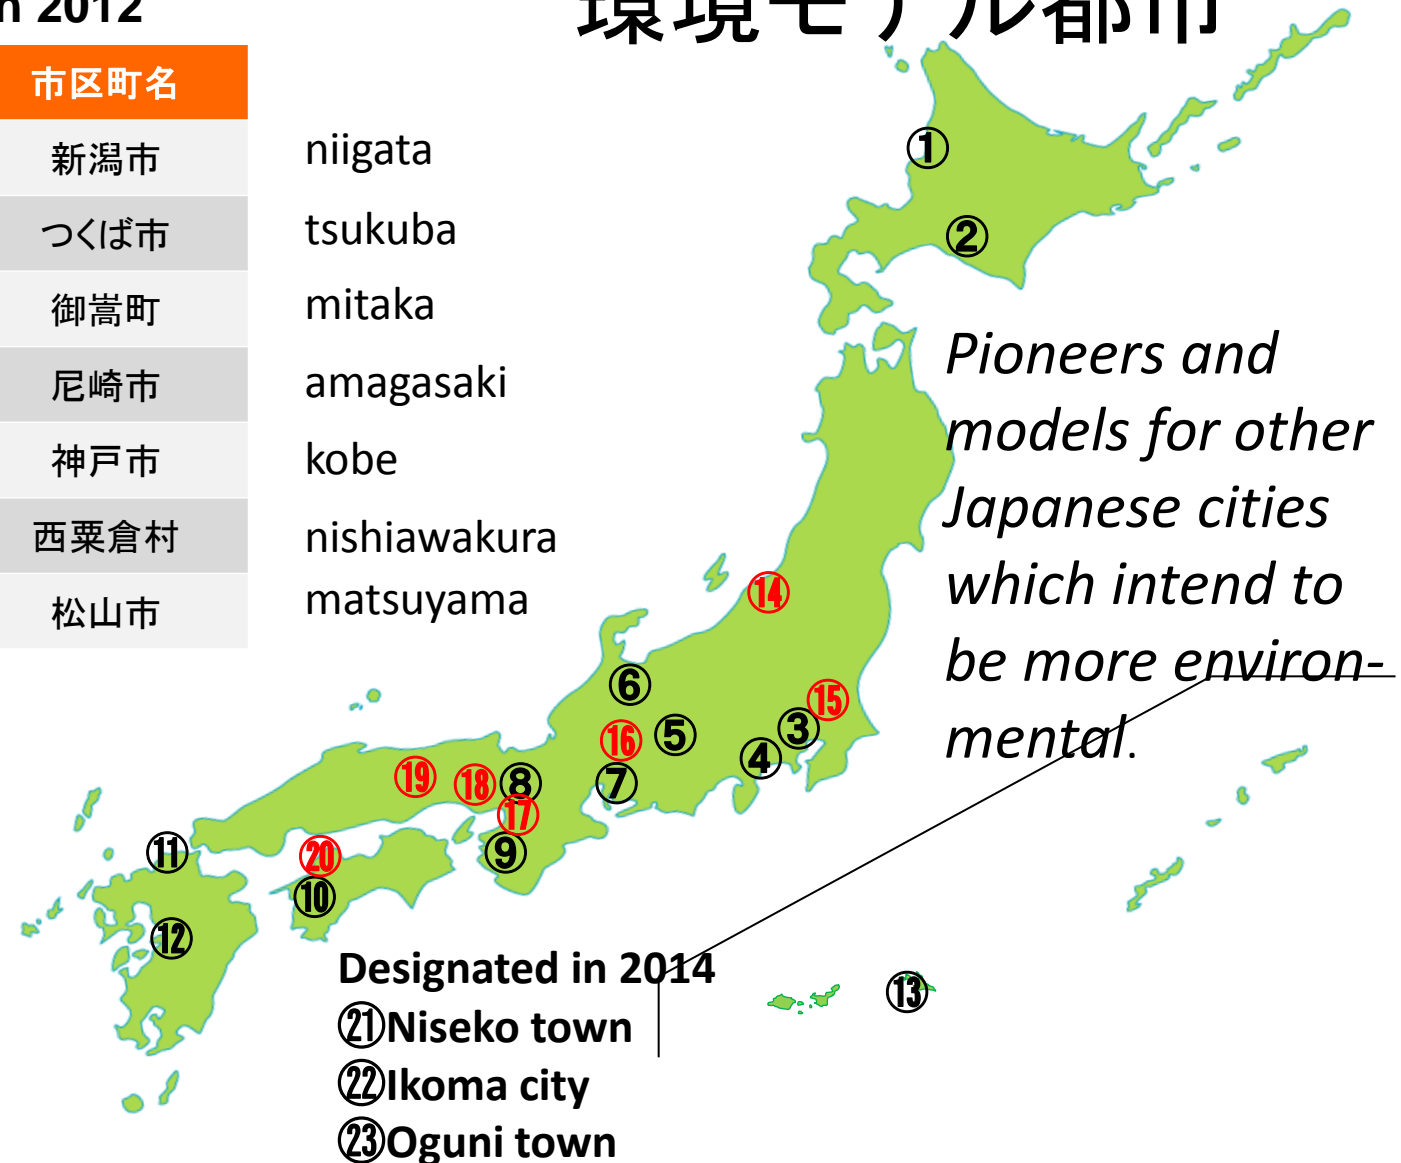

## 環境モデル都市

### Designated in 2008

No.	市区町名

⑳	松山市	matsuyama

# 商売の力をもっと環境に！

idea to be successful,  
based upon many experiences

- ✓ *Multi-beneficial*
- ✓ *Creating multi-agents commitments*
- ✓ *Co-evolution with the clients and the society*

Please refer to my recent book entitled 「環境でこそ儲ける」(東洋経済新報社) =  
“It is the Environment that Produces Profit”.

- ◆ With details ideas to develop the eco-business as well as skills to conduct these businesses, the autumn semester will offer a series of lectures on ‘Eco-business Design’.
