as well as those with total leased area of over 20,000 m ² NSCs operated under the name of AEON TOWN	

Aeon Sustainability Principle (revised April 2017)

Aeon Sustainability Principle (revised April 2017)

Aeon aims to realize a sustainable society and Group growth based on our basic principle of "pursuing peace, respecting humanity and contributing to local communities, always with the customer's point of view at its core."

From the dual perspectives of "environment" and "society," we will think globally and advance projects locally as we actively pursue initiatives alongside stakeholders.

Aiming to Achieve a Decarbonized Society

AEON Decarbonization Vision 2050

Aeon will work to reduce CO₂ and other greenhouse gas (hereinafter "GHG")

emissions by taking the following three-pronged approach,
thereby contributing to the realization of a decarbonized society.

Stores

We will reduce the total GHG emissions from our stores to zero by 2050.

Products and Logistics We will continue our efforts to achieve zero GHG emissions from our business operations.

Hand in hand with customers

We will cooperate with our customers for the realization of a decarbonized society.

To Achieve the Target for 2030

Reduce CO₂ emissions by 35% by 2030 (from the 2010 level)

<Means for achieving the target>

About 90% of AEON's CO₂ emissions are attributable to electricity

Reduce energy consumption at stores and switch to renewable energy

Energy conservation

Renewable energy

Aiming to Achieve a Decarbonized Society
