What We Expect in the Post-GAP Era

- Increasing roles of UNU and UNESCO:
 - **Monitoring** and **evaluation**
 - **Clearing house** function
 - **Catalyst** to promote the innovation
- **Unknown** and **unpredictable** future
- **No single answer** to social and global agenda
- Not only multi-disciplinary nor inter-disciplinary, but also **trans-disciplinary approaches** in education and research
- An importance of **“culture”** which has not been clearly stated in SDGs.
