

 *Communications for Science-based Solutions*  
– *Asia Pacific CC Adaptation Information Platform*

*Jinhua Zhang*

*Regional Coordinator  
Environment under Review Asia Pacific  
UN Environment Programme*

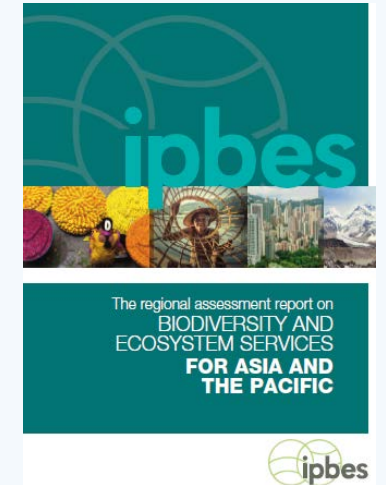

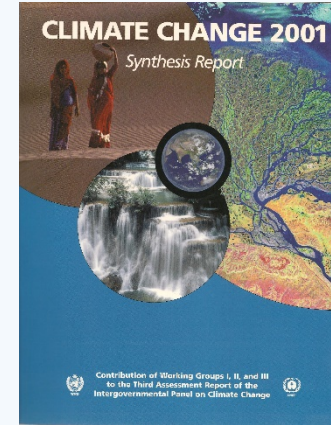

*International Forum for Sustainable  
Asia and the Pacific 2019  
30-31 July 2019, Japan*

# UNEP Mandate

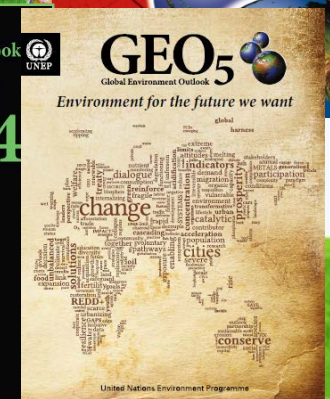

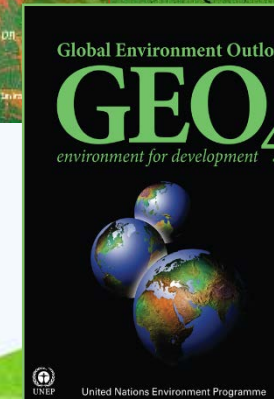

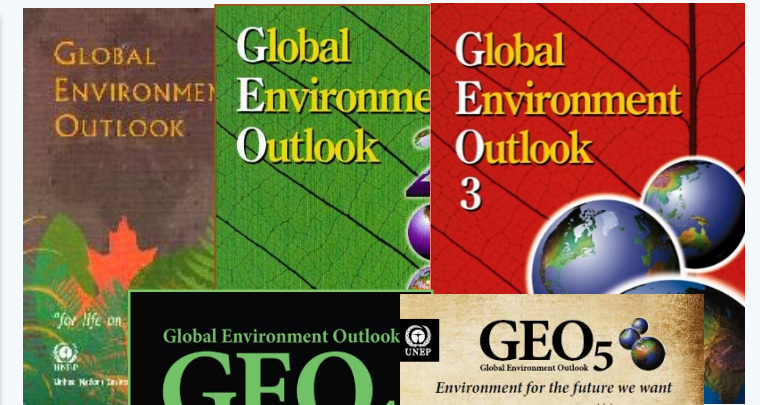

To keep under review the state of the global environment....

UNGA Resolution 2997 (XXVII) of 1972

IPCC  
IPBES

# Global Environment Outlook

# Results

- *Generated new knowledge on climate change, and information on solutions and best practices*
- *Built our confidentiality to act on climate change and environment challenges*

# Partnership

- *Strong commitment from partners*
- *Diverse knowledge and experience from partners*

# *Focused functions of Asia Pacific CC Adaptation Information Platform*

- *to promote and facilitate effective use of the latest science and other forms of knowledge on climate change adaptation in policy making and strategy on climate change adaptation;*
- *to generate and provide tailor-made climate-risk information for effective communications for science-based solutions, for implementation of adaption plans and strategies at national and community scales; and*
- *to support capacity building and exchange of experience and good practices on adaptation policies and strategy development, scientific technical skills for impact assessment, data and information management, especially at local and community scale;*

# *Focused functions of Asia Pacific CC Adaptation Information Platform*

*The Platform will inform scientific community and scientists the needs from policy makers and practitioners on climate change information and knowledge*

## Global Environment Outlook 6

*Improved information and greater knowledge enable better and more effective actions and solutions at all scales: global to community.*
