

T-PLAT

Thailand Climate Change Adaptation Information Platform

Dr. Wijarn Simachaya

Permanent Secretary of the Ministry of Natural Resources and Environment

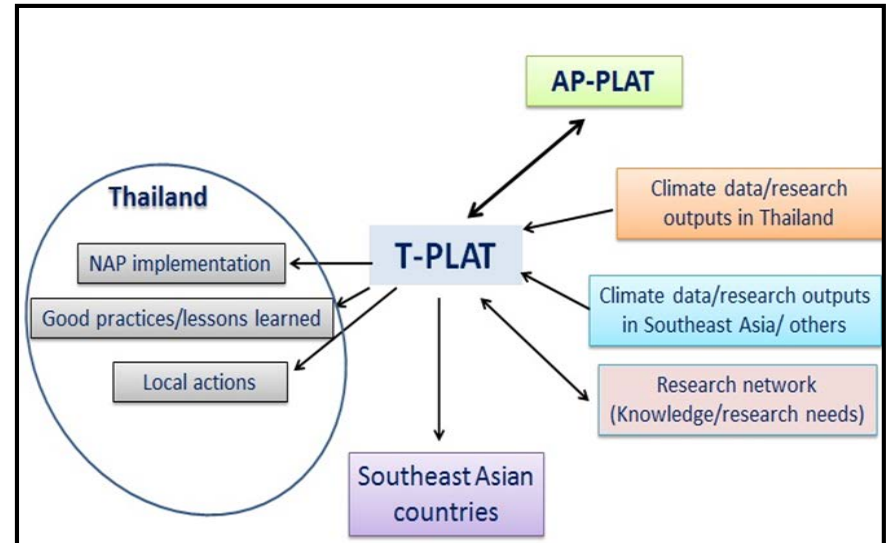

Seminar on International Forum for Sustainable Asia and the Pacific (ISAP) 2019,
PACIFICO YOKOHAMA, Annex Hall, Japan
31 July 2019

T-PLAT Overview

- MOEJ further support Thailand's Ministry of Natural Resources and Environment (MONRE) to develop "Thailand Climate Change Adaptation Information Platform (T-PLAT)" under Memorandum of Cooperation (MOC) between MOEJ and MONRE.

VISION

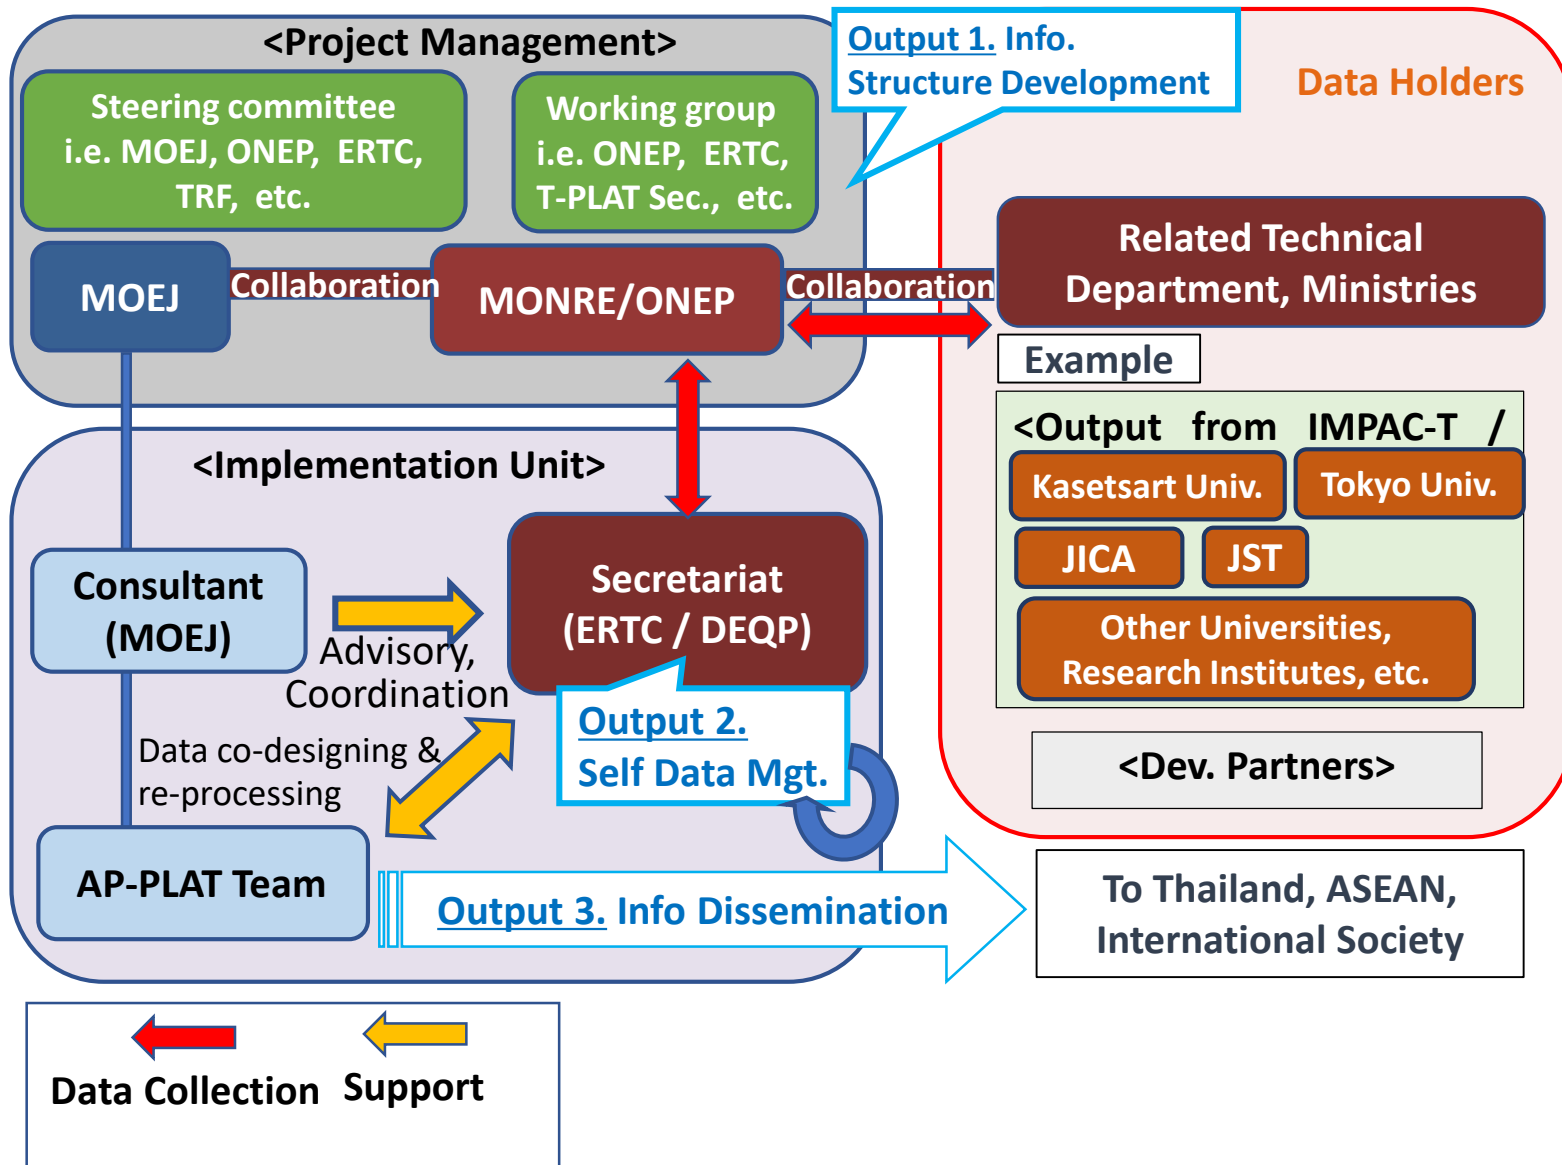

- To be a platform for Thailand concerning information of climate change risks and adaptation.
- To link AP-PLAT and contribute climate change adaptation in Southeast Asian countries.

MISSION

- Provide information
- Promote capacity development and toolkits for adaptation.
- Facilitate realization of climate risk-informed adaptation projects in Thailand.

T-PLAT organizational structure

Outputs

- Latest and up-to-date climate change information related to **6 key sectors** identified in **Thailand's NAP** as follows:
 - 1) Settlement and Human Security
 - 2) Public Health
 - 3) Water Management
 - 4) Agriculture and Food Security
 - 5) Tourism
 - 6) Natural Resource Management
- Programmes, projects, measurements and guideline on climate change adaptation for the 6 keys sectors identified in Thailand's NAP.
- Climate change adaptation techniques, implementations, best practices and tools; building capacity news on technologies and financing support, including news and activity involving with climate change adaptation updates

Users

- National, Sub-national and Local governmental staffs.
- Academia and Researchers.
- Communities and private sector.
