

PS-2: Partnerships for Sustainability

Linda Anne Stevenson, Acting Director

Secretariat of the Asia-Pacific Network for Global Change Research (APN)

Background

Escalating Global Challenges

- Fostering partnerships is crucial for addressing complex issues
- Essential for achieving sustainability goals, as highlighted in SDG 17

Session Speakers from IGES

- Led by the Asia-Pacific Network for Global Change Research (APN)
- Focuses on APN-funded projects by esteemed researchers from the Institute for Global Environmental Strategies (IGES)
- Aim to showcase the transformative potential of collaborative endeavours

Future Earth Japan

- Provides key feedback on the three main presentations
- Facilitates a panel discussion featuring IGES researchers
- Engages the audience in meaningful dialogue

Ministry of the Environment Japan (MOEJ)

- Supported by the Ministry of the Environment Japan (MOEJ).
- Drives policy-relevant global change and sustainability research across the Asia-Pacific region

Strengthen the means of implementation and revitalise the Global Partnership for Sustainable Development

Partnerships for Sustainability

Enhancing Community Adaptation in Vulnerable Riverine Islands in Bangladesh, India and Vietnam

Dr Pankaj Kumar, IGES

- Use socio-hydrology to improve social resilience and adaptive measures for water management.
- Apply human-water relations to help maintain the hydrological cycle and meet local water needs
- Engage stakeholders in socio-hydrological models for sustainable water resource management

Catalysing Local Adaptation Innovations: Linking Indigenous Knowledge with National Commitments through Strong Partnerships

Dr Binaya Shivakoti, IGES

- Enhance sustainability through collaboration in Nepal, Vietnam, and Fiji
- Optimise resource use and financial management
- Support continuous learning and implementation at the local level

Integrating Climate Adaptation and Disaster Risk Reduction: Enhancing Resilience through Regional Partnerships

Dr S.V.R.K Prabhakar, IGES

- Combine climate adaptation and disaster risk reduction to tackle climate challenges
- Strengthen collaboration across counties in Southeast Asia for effective resilience
- Leverage strong partnerships and joint initiatives to enhance regional capacity

Partnerships for Sustainability

DR FUMIKO KASUGA

DR RIA LAMBINO

Led by Future Earth Japan, there will be a short Intervention and panel and audience discussion on the importance of partnerships for sustainability with speakers and the audience

DR NAFESA ISMAIL, APN
